## PRODUCTS OR MACHINERY

The areas of activity by Gedvelop comprise the design, development and supply of non-intrusive control and measuring equipment for the glass and glass fibre industry.

GFM - Glass Flow Measurement with Glass Flow Control and Glass Flow Temperature Measurement in glass fiber industry.

## COMPANY BACKGROUND / HISTORY

The company Gedvelop was established in 1986 as a result of a buy out of a product line developed by the R&D department of Gullfiber AB, nowadays Isover – Saint-Gobain. This product line – GFM, Glass Flow Measurement – had been in service in the Gullfiber plant for a number of years and with the forming of Gedvelop the aim became to achieve a wider expansion of the system world-wide.

By now the GFM system has found its application in as much as 80-90% of all glass fibre plants. About 2000 cameras have been supplied and are in operation all over the world.

Company Profile of **Gedvelop AB**

A service of glasssglobal.com, an affiliate of glasssglobal group.
