PRODUCTS OR MACHINERY

Outstanding manual and technical skills of our blowers and specialist in glass processing provide the highest quality of our products. This allows us to create products with the highest degree of difficulty, eg. globes diameter of 600mm, glass shades with a diameter of 900 mm, 300x300 mm cubes, tubes with a diameter of 250 mm and a height of 670 mm or 190 x 1000 mm. We are also able to produce products length up to 2500 mm.

 Our lampshades can be decorated using a wide range of treatments such as:

- acid matting,
- sandblasting,
- grinding,
- painting,
- sticking and fixing decals.

In order to increase the attractiveness of products, our lampshades can be decorated using workshop techniques such as:

- production with the use of pre-moulds,
- joining with coloured grits or powders,
- achieving the effect of bubbles (bubbles of air),
- achieving the effect of cracle (cracking surface).

Most of our products is produced on special orders of the biggest world's lighting manufacturers as well as individual designers. We accept for production copyright lighting projects regardless of the number of the order.
