Address	CGI France SARL Pyroguard UK Parc d'activités communautaire n°1 145 rue des Roseaux 57455 SEINGBOUSE
Country	France

PRODUCTS OR MACHINERY

Pyroguard EW fire resistant glass is manufactured using a patented 'cast in place' glass lamination process. This consists of two or more layers of float glass with interlayers of specially formulated clear resin between the plates of glass.

The Pyroguard product range is designed to provide fire safety glazing solutions for a variety of building applications. Pyroguard is manufactured in stock sheets so distributors can cut it to their required size. The products have a short delivery lead time and are easily cut and processed, allowing flexibility in their use. We can also cut the glass for you prior to delivery if you would prefer.

Company Profile of **CGI France SARL**

A service of glasssglobal.com, an affiliate of glasssglobal group.
