PRODUCTS OR MACHINERY

Pulp Studio, the leading designers and manufacturers of technically superior decorative glass for commercial markets has added to its rich catalog of architectural glass with the introduction of DermaGlass™, a highly durable, light-weight glass strong enough for exteriors and facades, as well as interiors.

DermaGlass™ is only 1.3mm in thickness, yet it is as durable and damage resistant as more traditional thicker heat-treated glass. Using an ion-exchange process, DermaGlass™ is highly resilient and extremely versatile. Due to its thin profile it can be used by designers to bend the glass around columns or into decorative shapes.

Company Profile of **Pulp Studio Inc.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
