PRODUCTS OR MACHINERY

Applied Films designs and manufactures advanced vacuum coating systems for the architectural and automotive glass industry. Our equipment enables glass manufacturers to produce functional glass with increased layer performance at reduced coating costs per unit. With high coating capacity, flexibility, speed, throughput and maximum uptime Applied Films' thin film coating solutions enable high quality coatings for the glass industry. All coating systems allow glass manufacturers to make just-in-time deliveries of high value products to their clients at competitive costs.

Company Profile of **Applied Materials GmbH & Co. KG**

A service of glasssglobal.com, an affiliate of glasssglobal group.
