Country	Czech Republic

PRODUCTS OR MACHINERY

Technicoat s.r.o. applies surface coatings to: Parts of processing equipment to maximise the efficiency of manufacturing processes Final products to enhance their service properties and performance, f.ex. Conveyor rollers Industrial coatings applied can be used on carbon steel, aluminum, stainless steel, steel alloys, brass, and magnesium, as well as non-metallics such as glass, fiberglass, some rubber, and plastics. Optimum adhesion is obtained by roughening the surface before applying the coating. Except where specifically mentioned, most industrial coatings require a primer coat. Increased chemical resistance Non-stick properties Conveyor rollers
