Address	Eurotherm Netherlands Invensys Eurotherm Genielaan 4 2404 CH Alphen aan den Rijn
Country	Netherlands

PRODUCTS OR MACHINERY

Our system building experience covers process, power and speed control of float, container, fibre, tube and ultra thin glass production lines. We offer cost-effective engineered solutions involving the hot and cold end, including batch house control, furnace control, electrical boosting power supplies, variable frequency high power drive systems and soft starters, annealing lehr control, custom made high temperature thermocouples, tin bath roof heating power supplies, intelligent IS-machine cooling systems, advanced process control, corporate energy management, precious metal heating control and installation services.

Key application areas include: melting & electrode heating, forehearth control, glass lehrs, batch monitoring & reporting, float line controls, glass level control, furnace pressure control, temperature homogeneity control, hot spot monitoring, power/energy control, top roll control, conveyor belt control and emissions monitoring.

As part of the Schneider Electric group we are also able to supply electrical distribution and relevant switchgear and consumables.

Company Profile of **Eurotherm Netherlands**
