PRODUCTS OR MACHINERY

Founded in 1979, the i2S Group is a company dedicated to industrial vision systems. Its LineScan division designs, manufactures and sells worldwide linescan vision systems for web inspection applications. Our products allow 100% continuous inspection for any fast moving web. With its strong vision expertise and advanced technology skills, i2S LineScan guarantees innovative and performant solutions to ensure quality controls. Being present in Europe, USA and China, i2S LineScan can support your manufacturing activities in the most active regions around the world. i2S LineScan designs and sells several architectures of systems within its FLAWSCAN product family. From a basic system that can quickly be integrated on a production line at a reasonable cost, to a more advanced system for high speed wide web application, all FLAWSCAN systems. In addition to standard camera system, i2S has recently introduced the revolutionnary SMARTSCAN sensor. Whatever the field of application, our products allow 100% inspection of defects on any type of continuous web material: nonwoven, plastic, glass, paper, etc...
