PRODUCTS OR MACHINERY

Supplier of Lubricants

We are a leading global producer of acetyl products, including acetic acid and vinyl acetate monomer ("VAM"), polyacetal products ("POM"), as well as a leading global producer of high-performance engineered polymers used in consumer and industrial products and designed to meet highly technical customer requirements.

We are one of the lowest-cost producers of key building block chemicals in the acetyls chain, such as acetic acid and VAM, due to our economies of scale, operating efficiencies and proprietary production technologies.

Company Profile of **Celanese Mexicana S.A.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
