## PRODUCTS OR MACHINERY

At our own production facility for insulated glasses which is affiliated to our premises in Cologne we manufacture high-quality brand insulating glass. In dependence on our licensor Consafis, some of them are also manufactured with embedded venetian blinds.

In addition, all glass produced by us is accompanied by the KOMO Certificate for the Low Countries.

At our subsidiary company's factory "Sachsenglas Chemnitz GmbH" we manufacture toughened glass, screen printed glass and, as well, insulating glass.

Further main focal points of our market activities include flatglass trade comprising all products for the construction and interior fittings as well as all types of safety glass.

Apart from a generous and well-assorted stock of all popular and well-known ornaments, laminated glass and float glass we also keep a very comprehensive stock of glass for the greenhouse sector.

All orders are subject to constant internal and external monitoring, with our equipment ensuring a continual high level of quality.

In the following you will find a survey which gives you an impression not only of our broad range of products but also of our company's potential:

- Insulating glass
- Insulating glass with integrated alarm function

Insulating glass with embedded solar protection  
Float glass  
Laminated glass  
Cast glass  
Toughened glass  
Fittings for all-glass constructions/plate glass doors/shower cubicles  
Glass for the construction of greenhouses  
A broad range of accessories

## COMPANY BACKGROUND / HISTORY
