PRODUCTS OR MACHINERY

E GLASS is the revolutionary new technology that marries glass with electronics, turning them into windows, doors and skylights which give you full control of light, sunglare and heat gain with the touch of a button.

EGlass eliminates the requirement for mechanical shades, blinds and other window coverings, and opens up many design possibilities, particularly for odd shaped, hard-to-reach windows and skylights.

Company Profile of **Innovative Glass Corporation**

A service of glasssglobal.com, an affiliate of glasssglobal group.
