PRODUCTS OR MACHINERY

refractories WORLDFORUM is the new technical and scientific journal for the entire refractories sector: production, application and further development of high-temperature materials.

refractories WORLDFORUM addresses refractories professionals worldwide, i.e. in the production of refractories as well as in industries processing and consuming refractories, suppliers (raw materials and additives) and plant and machine engineers.

refractories WORLDFORUM updates its readers on state-of-the-art processes and innovative technologies in the production and processing of refractories and reports on applications in industrial kiln and furnace construction for the following sectors:

- manufacture of iron and steel, non-ferrous metals, aluminium, cement, lime, glass and ceramics
- manufacture of high performance composites and coatings
- foundry, petrochemistry, power generation and waste incineration

Company Profile of **Refractories Worldforum**
