PRODUCTS OR MACHINERY

We create custom forms and sizes based on your specifications. You can benefit from our competence and experience! We specialize in processing sheet glass with different drill holes, patterns and edges. We also supply special materials for use in making leaded glass. Rectangles, quadrangles, triangles, squares, polygons, ovals, round glass, rhombuses, trapezoids, mirrors and stained glass are available in all glass thicknesses and sizes.

We offer a variety of special services including glass rim fusing and fire polishing, countersinking, bending and printing. Our glass services range from appliqués to drilling all types of glass from vases to candle holders, polishing, cutting, frosting and repairing. We collaborate with Europe's largest glass manufacturers and look forward to challenging jobs.
