PRODUCTS OR MACHINERY

Safety & Standards

AJIYA Tempered Glass is safety glazing material, conforming to the requirements of ASTM C 1048, ANSI 97.1, BS 6206, etc.

Strength

AJIYA Tempered Glass is approximately 4 to 5 times stronger than ordinary annealed glass. It has a higher bending strength and is more resistant to impact.

Thermal Stress Resistant

AJIYA Tempered Glass is more resistant to thermally induced stress and can, therefore, resist thermal shock which can cause ordinary annealed glass to crack.

Fabrication

AJIYA Tempered Glass cannot be drilled, cut or edged after being heat treated. All dimensions and specifications must be determined before the glass is tempered.

Color

In addition to clear glass, AJIYA Tempered Glass also comes in various colors or tints, and can be reflective or low energy as well.

Company Profile of **Ajiya Safety Glass Sdn. BHD.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
