PRODUCTS OR MACHINERY

We think in categories of solutions supporting crucial needs of customers in the scope of refining products with ceramic materials. The company is discerning growing demands for the market and need of the permanent development, therefore we are placing emphasis for searching and implementing modern and specialist methods of the production and improving services which are applied in all decorative and products from glass, ceramics and enamel.

Our competence:

- designing of product connected with analysis of the application
- technical-commercial full service
- production on the high standard quality
