PRODUCTS OR MACHINERY

Sediver offers:

Continuous innovation and research investment to develop new solutions
State-of-the-art testing and research equipments providing a unique combination of capabilities in all scientific fields
Strong presence in the field with utilities to provide unparalleled support to customers' needs
An extensive range of solutions including:
 Toughened glass insulators,
 RTV silicone coated glass insulators,
 Composite insulators
 Composite surge arresters

COMPANY BACKGROUND / HISTORY

For more than 60 year, Sediver has specialised in the research, design, manufacturing and testing of glass and polymer insulators and surge arresters used in the power generation and power transmission with a complete range of products, from medium voltage up to Ultra High Voltage (800 kV DC & 1.000 kV AC).

Our unique know-how, gained through field experience, research capability and state-of-the-art laboratories, as well as close cooperation with utilities, makes us the partner for innovation, able to develop and provide solutions to customers for High to Ultra High Voltage insulation and protection.

Company Profile of **Sediver**

A service of glasssglobal.com, an affiliate of glasssglobal group.
