PRODUCTS OR MACHINERY

MKU-Chemie GmbH is producer of water-insoluble and water-soluble, mineral oil-free and mineral-oil containing special lubricants and cutting oil and additives which are used for the whole range of materials (metal, wood, rubber, glass, ceramics, semi-conductors etc.) We produce ourselves the necessary semi-finished materials like anti-corrosives, emulsifying agents, AW- and EP-additives. For this reason, MKU-Chemie GmbH always is able to develop and produce special lubricants which are adapted to the specific demands of our customers. Our scope of delivery comprises about 1600 qualities, 150 of them are standard qualities. All the other qualities are only produced order-related.
