PRODUCTS OR MACHINERY

Vlakglas Recycling Nederland. Together we make glass infinite.

Recycling is not a choice, but a necessity. After all, the depletion of the earth's raw materials has been a growing problem for many years. Our supplies of oil, gas, minerals and metals are being depleted so fast that it is uncertain how much more we can extract from the earth. Recycling is part of the solution to this issue. It is worth separating and collecting any materials that we can in order to recycle them. The same applies to waste sheet glass.
