PRODUCTS OR MACHINERY

Automatic Surface Inspection Solutions for Detection of Material Irregularities and Defects, Measurement of Mechanical and Optical Properties for the Optical Media, Flat Panel Display, Glass, Paper, Plastic, Film and Foil, Steel, Solar and Semiconductor Industries.

Flat Panel and Float Glass Inspection

Dr. Schenk offers a variety of customized solutions for glass sheets and float/ribbon glass. Reliable inspection for defects or irregularities is available for bare glass, laminated and coated glass, solar glass, TFT-array, OLED, and light guide plates.

Solar Inspection

The Dr. Schenk SolarInspect series is designed to fulfill the special requirements throughout the production of thin film solar modules. These turnkey vision systems offer reliable quality control throughout the running production process. In addition, continuous monitoring of the production process allows timely corrective action to be taken when process deviations appear.

Moreover, Dr. Schenk provides a variety of measurement modules based on proprietary technology for color, thickness and warpage measurement
