PRODUCTS OR MACHINERY

The development, design and construction of machines for glass manufacture were the cornerstone of the history and development of IProTec GmbH. After the company moved from Grafenau to Zwiesel, which created a synergistic effect given our cooperation with Zwiesel Kristallglas AG, we expanded our technical competence into the mechanical and plant engineering sector for the glass industry.

Having developed a great number of patents together with Zwiesel Kristallglas AG, we now provide complete manufacturing plants for (flute) glass production.

Components:

- Feeders
- Shears
- Blow moulding machines
- Presses
- Casting machines
- Chains (handling equipment)
- Cooling conveyor loading
- Cooling conveyor unloading
- Split-off / cut-off
- Melting
- Laser marking
- Automatic quality control
- Packing
- Palletization
- And much more.
